

# The Fluffyfly

The Fluffyfly was one of the animals of Atlantis.

It was a very friendly animal.

It looked like a wolf with a horn and small wings.

On its wings were a lot of white feathers.

The Fluffyfly had a grey, brown or black fur.

It lived on land and could fly.

The animal could grow to a length of 55 cm.

It ate fruits and sometimes meat, but its favourite

food were mushrooms. It was the most popular pet in

Atlantis, because it was very nice and loving. The Fluffyfly

needed a lot of love. Its horn was golden with a lot of

whinestones. It could become to 21 years. A young animal

had to stay with the mother until the age of one.
